

Cambridge Integrated Services

WE BRIDGE GAPS.

WE CREATE CONNECTIONS.

WE GET YOU THERE.

Training and Education

Cambridge has a strong commitment to client education.

We offer programs that are designed to improve your understanding of Workers' Compensation and Occupational Health and Safety.

Our sessions have a strong focus on risk management so that you can prevent injuries in the workplace and reduce the incidence of workers' compensation claims.

In the event of claims, we will help you manage them more effectively so that you can support your injured workers and keep your premium costs down.

Seminars or tailored training courses can be designed specifically for your needs and conducted on Cambridge premises or locations convenient for you.

Topics include:

- Introduction to Workers' Compensation
- Understanding your Workers' Compensation premium
- Claims management and Early Intervention
- Role of a Return to Work Co-ordinator
- Promoting Occupational Health and Safety in the Workplace

Additional services

- The Cambridge Communiqué quarterly newsletter
- Cambridge e-News subscriber email facility
- Industry Forums
- Cambridge Better Workplace Awards
- Safety Fact Sheets
- Cambridge Website
